ENTERED AT SAN FRANCISCO, CAL., AS SECOND-CLASS MATTER

A NEW BOOK BY AN EMINENT AUTHORITY, DISEASES OF THE LUNGS.

Robert H. Babcock, A.M., M.D.

With 11 Colored Plates and 104 Illustrated, 8vo., cloth, \$6.00 Net.

The work is the first one in this country to deal exhaustively and solely with the subject.

This book not only describes the various diseases of the lungs, with their etiology, pathology and diagnosis, but gives full and safe therapeutic measures.

The subject of Pneumonia and all diseases of the Pleura are exhaustively treated.

The chapter on prevention of Tuberculosis is opportune and fully covers the ground of this most important side of Tuberculosis.

Our New 1907 Illustrated Medical Catalogue with further descriptive matter of the above work sent upon request. Mail a postal card today.
